Detailed Report

ANANTATA, The Mathematics Society of Kalindi College, celebrated Teacher's Day on 5th September 2024 with great enthusiasm and appreciation for the teachers of the department. The celebration began with a warm welcome of the professors by the office bearers of the society, who greeted them with flowers and hand-made cards. A welcome speech was delivered by Dr. Abhishek Kumar Singh (TIC, Department of Mathematics), followed by a heartfelt poem recitation by Agya Gupta, a first-year student. The highlight of the event was a delightful games played by the professors. After the fun-filled activities, a cake-cutting ceremony was held to honor the teachers, and the celebration concluded with ice cream distributed to all the students as a gesture of affection from the teachers. The event fostered a strong sense of community and gratitude, making it a memorable occasion for both students and faculty.

POSTER OF THE EVENT:

DETAILED REPORT:

As part of an academic activity, ANANTATA, The Mathematics Society of Kalindi College, Delhi University, organized a Lecture by Dr. Neetu Arneja, who is an alumni of Kalindi college. The topic of the lecture was “Mathematics with Meditation: An Innovation.” All the faculty members and the students of the Department of Mathematics were present.

The event started with a welcoming speech by Dr. Abhishek Kumar Singh (TIC, Department of Mathematics). Following this, Dr. Neetu Arneja was presented with a planter by Dr. Abhishek Kumar Singh as a token of appreciation and respect. The lecturer led a meditation activity, which the whole class and teachers participated in. This exercise demonstrated how a calm mind can better tackle mathematical problems. The lecturer also discussed how meditation enhances concentration and patience—qualities that are essential for studying mathematics. They shared practical techniques for students to apply in their daily lives. After that our respected faculty member Ms. Neelam Bareja shared her own experiences with meditation, encouraging students to use mindfulness for better focus and stress management. Then the session ended with a Q&A where students expressed interest in using meditation to improve their studies.

Then we had an oath ceremony. The whole team of Anantata introduced themselves to the new students, a short celebration to welcome the freshers in our department.

The “Mathematics with Meditation” lecture was a valuable experience for both students and teachers at Kalindi College. By connecting meditation with mathematics, the event introduced a fresh way of learning that supports both academic success and personal well-being. Students left the session feeling motivated to add mindfulness to their study routines, inspired by the idea that math and meditation can go together for a balanced and enjoyable learning experience. While the fresher’s celebration helped strengthen bonds within the department.

DETAILED REPORT

ANANTATA, the Mathematics Society of Kalindi College, organized a Paper Presentation Competition on 14 November 2024. The theme of the competition was “Mathematical Discoveries and Innovations.” The event commenced with an Inaugural Session in the Seminar Room, featuring a Saraswati Vandana and the traditional lighting of the lamp in the esteemed presence of the Teacher-in-Charge, Dr. Abhishek Kumar Singh, and guest speaker Dr. Santosh Kaushik, Assistant Professor at Bhagini Nivedita College, University of Delhi. Following the lamp-lighting ceremony, Ms. Garima Gaur, Convener of the Mathematics Society, presented a planter to Dr. Santosh Kaushik as a token of appreciation.

The welcome address was delivered by Dr. Abhishek Kumar Singh, followed by an inspiring speech by Dr. Santosh Kaushik. During the session, badges were distributed to the office bearers of the Mathematics Society in recognition of their roles.

The competition witnessed enthusiastic participation from 13 teams, including 9 teams from Kalindi College and 4 from other colleges, with a total of 21 participants. The event, guided by Ms. Garima Gaur and overseen by Dr. Abhishek Kumar Singh as the Teacher-in-Charge of the Mathematics Department, aimed to enhance students’ research and analytical skills in their areas of specialization.

Participants presented their topics to the panel of judges, which included Dr. Santosh Kaushik and Dr. Rajni Kanwar from Kalindi College. The judges commended the participants for their preparation and offered constructive feedback to guide them further. The event concluded with an inspiring speech by Ms. Garima Gaur, marking the end of a day filled with intellectual engagement and valuable insights.

WINNERS:

1st Position

Team - Rajdhani

Topic - New Method of Integration

Prize Money:Rs. 1800/-

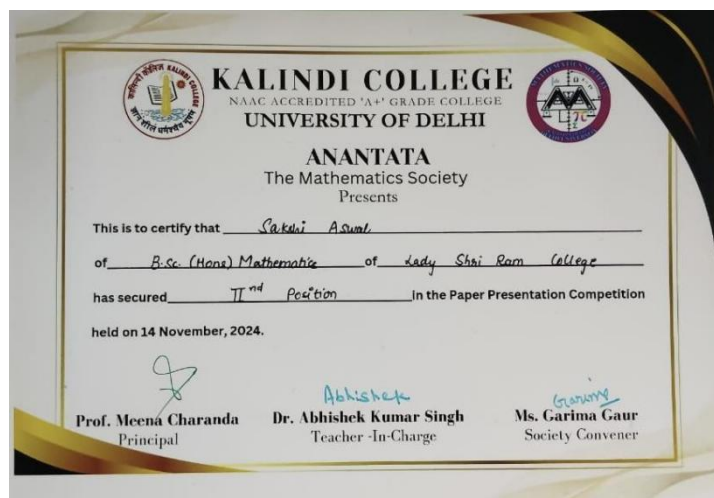

2nd Position

Team - Wizard

Topic - The Mathematics Behind GPS

Prize Money: Rs. 1500/-

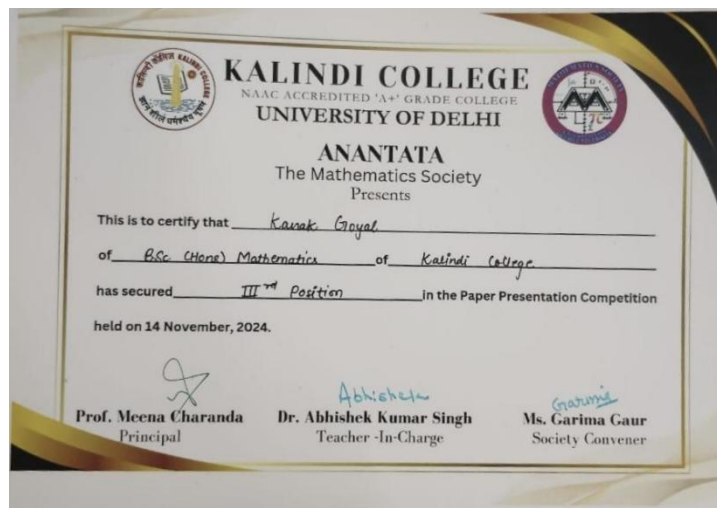

3rd Position

Team - Kanak Spark

Topic - Grey Wolf Optimisation

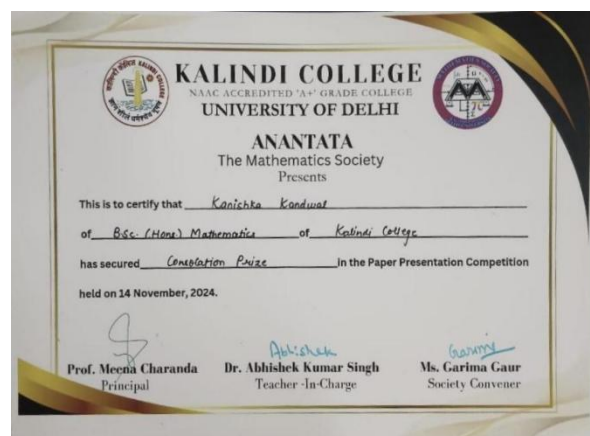

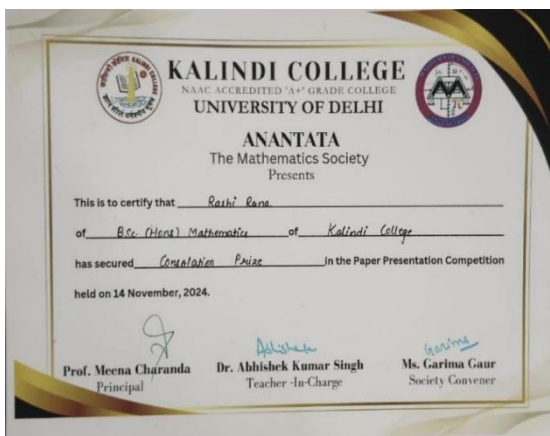

Prize Money: Rs. 1200/-

Consolation Position

Team 1 - Calculus Crusaders

Topic - Calculus

Team 2 - Krishna

Topic - Fibonacci Sequence

POSTER OF THE EVENT:

DETAILED REPORT:

On Ramanujan Day, ANANTATA, The Mathematics Society of Kalindi College, Delhi University, celebrated the life and contributions of the great mathematician Srinivasa Ramanujan through a series of engaging activities that highlighted his genius and inspired creativity among participants.

The event started with Deepdan delivering a heartfelt speech that captured the essence of Ramanujan's work and his impact on mathematics. The audience was moved by the stories of Ramanujan's challenges and achievements, setting a reflective tone for the day.

Following that, Kanishka from 1st year presented a beautifully crafted poem that paid tribute to Ramanujan's brilliance. The poem resonated with the audience, evoking emotions and admiration for the mathematician's extraordinary talent. Arpita and Palak (1st year students) teamed up for a joint presentation, where they shared insights into Ramanujan's unique approach to mathematics and the significance of his discoveries. Their dynamic presentation engaged the audience and sparked discussions about the relevance of Ramanujan's work in today's world. To add an element of fun, interactive games were organised that challenged participants' problem-solving skills and encouraged teamwork. The games were a hit, providing both entertainment and learning opportunities.

Finally, Agya (1st year student) delivered the vote of thanks, expressing gratitude to everyone involved in making the event a success. The acknowledgement of contributions from all participants wrapped up the day on a positive note, leaving everyone inspired by Ramanujan's legacy.

Ramanujan Day was a wonderful celebration filled with learning, creativity, and appreciation for one of the greatest mathematicians in history.

The Mathematics Society of Kalindi College, ANANTATA, organized its annual fest, “**Math-e-Magic**” with great enthusiasm. Students from various disciplines and colleges participated actively, celebrating the joy of mathematics in a lively and engaging manner. The fest commenced with the lighting of the ceremonial lamp, symbolizing the light of knowledge. It was graced by Prof. Dr. Meena Charanda, Principal of Kalindi College, who delivered an inspiring address emphasizing the role of mathematics in fostering logical thinking and innovation. Mrs. Charu Khanna, faculty member of the Mathematics Department, encouraged students to blend academic learning with creativity, while Dr. Abhishek Kumar Singh, Teacher-in-Charge of the department, extended a warm welcome to all participants and appreciated the efforts of the organizing team. He encouraged students to participate actively and experience the joy of learning through fun.

Events and Competitions

A variety of events were conducted to engage participants intellectually and creatively:

- **Quiz Quest:** A multi-round competition testing knowledge of concepts, theorems, puzzles, and mathematical history.
- **Treasure Hunt:** A thrilling clue-based adventure across the campus, blending mathematics with teamwork and excitement.
- **Sudoku Challenge:** A logic-based contest focusing on accuracy, speed, and strategic thinking
- **Open Stage:** A platform where students showcased poetry, music, stand-up acts, and storytelling, many incorporating mathematical themes.
- **Photography Competition:** A creative contest capturing mathematical beauty through patterns, symmetry, and structures in everyday life.

The Math-e-Magic fest was a successful blend of knowledge, creativity, and collaboration. It highlighted the versatility of mathematics beyond academics and concluded with the distribution of certificates and prizes. The office bearers of Anantata were also recognized for their hard work and dedication, once again proving that mathematics is a vibrant and joyful pursuit.

Linear Geometry. The trees form a straight line, which is a line in geometry. 2. Parallelism & Perspective: When it looks like the trees are slightly diverging, it's due to perspective. If the spacing between trees is constant, it's an arithmetic progression. Tree 1 is at 0 m. Tree 2 is at 6 m. This can be expressed as: Position _n = a + (n - 1)d = starting position + (tree number - 1) * distance difference (spacing). 4. Symmetry: If there's a row on the opposite side it's a reflection.

Mathematic	9045043573	aashviagarwal2@gmail.c	https://drive.google.com	https://drive.google.com	Introduction: This image is a historical monument. 1. Symmetry: The monument displays "bilateral symmetry," meaning it can be divided into two mirror-image halves. 2. Geometric Shapes: The structure is composed of various geometric shapes: circles (arches), rectangles (pillars), and triangles (roof sections). 3. Parallel Lines: The arches and pillars are vertically "parallel." 4. Proportion & Ratio: The spacing between arches and pillars follows a harmonic ratio, often defined as 1:√2 or 1:√3. 5. Repetition & Patterns: The arches are repeated, creating a rhythmic pattern. 6. Perspective: The structure is viewed from a low angle, creating a sense of height and grandeur. 7. Fractals & Scaling: The design uses self-similar patterns, where smaller parts resemble the whole. 8. Proportion & Ratio: The spacing between arches and pillars follows a harmonic ratio. 9. Conclusion: The image is a testament to the beauty of mathematics in architecture. It's not just art; it's science. This photo captures the natural symm
