2020-21

Convenor : Dr. Alka Chaturvedi

Co –Convener: Dr. Seema Sahdev

A Parent- Teacher- Students interface is a formal organisation composed of parents, teacher and students that is intended to facilitate parental participation in the college. The main objectives of PTSI include-

1.   To build strong working relationship among parents and teachers in support of students.
2.   To obtain knowledge and voice their opinion about what is happening in the college.
3.   To understand students from the parent's and teacher's perspectives
4.   To ensure that the college offers the best learning experience for the students keeping in minds their need.
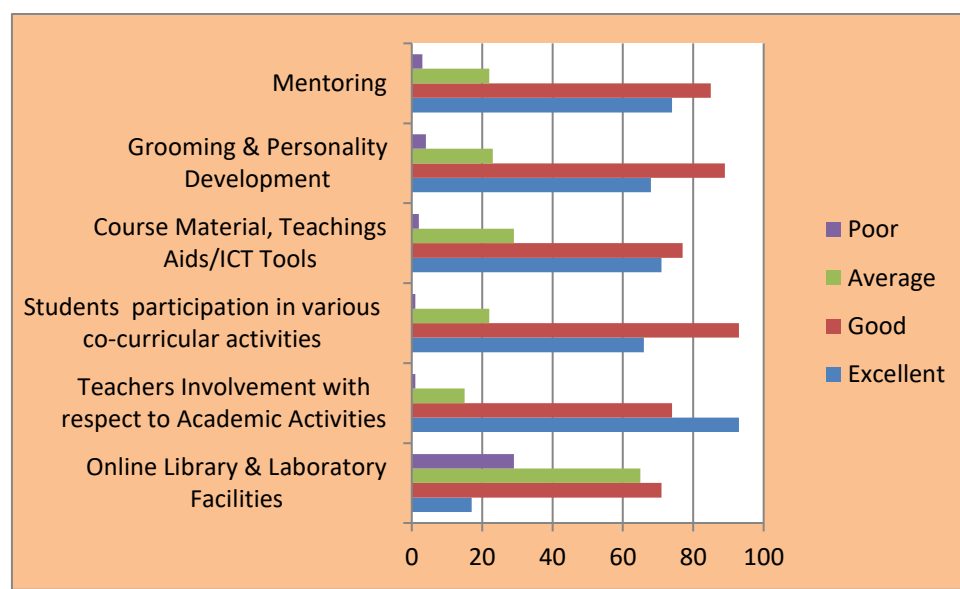

College hosts PTSI to keep parents informed and devise Plans for supporting our teachers to ensure that all our students can reach their full potential.
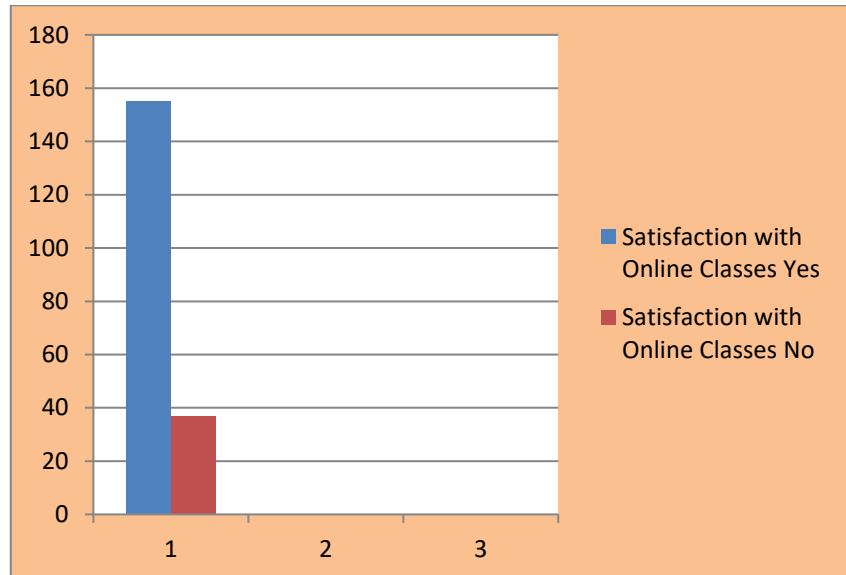

Though this interface teachers know the social background, interests of the students, and student's opinion about everything that is going in the college, including teacher, and college management. It provides information about the College functioning as well as problems faced by the students. The PTSI in the college works towards improving and enhancing the life of the student and the college as the whole. Knowing more about a student helps teacher to cater to their needs accordingly.

The Parent-Teacher-Student Interface for the academic year 2020 - 2021 was held on 10th April 2021 via online mode on google meet by various departments due to Covid 19. Parents of students from various departments attended the PTSI and also gave their feedback through google form.
