KALINDI COLLEGE

Curriculum Feedback Form for Students: 2020-21

Total Responses: 2,245

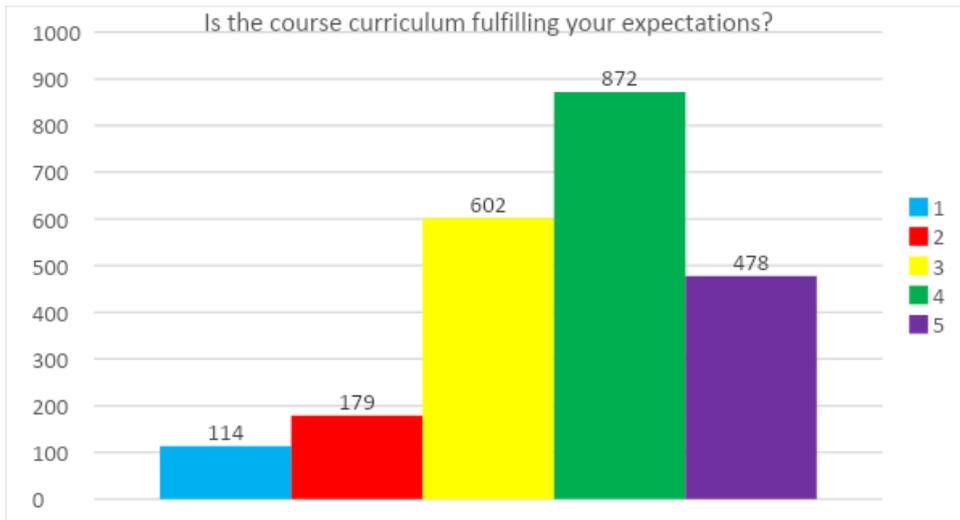

1. How do you rate your satisfaction level with reference to the curriculum design?

1	97
2	170
3	600
4	909
5	469

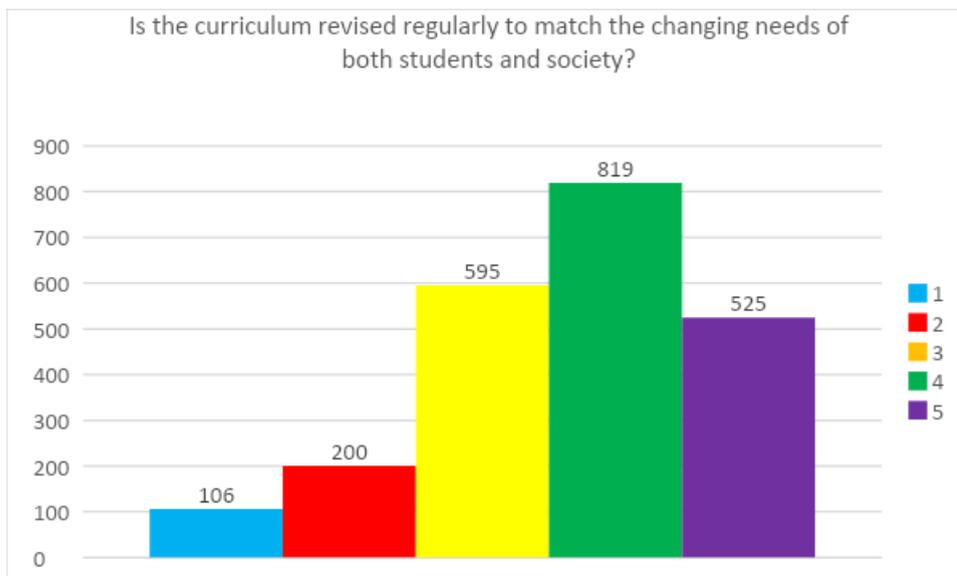

2. Is the course curriculum fulfilling your expectations?

1	114
2	179
3	602
4	872
5	478

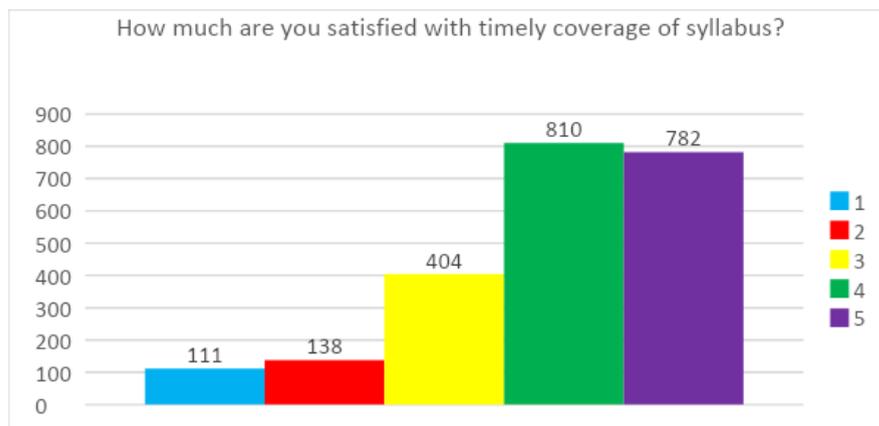

3. Is the curriculum revised regularly to match the changing needs of both students and society?

1	106
2	200
3	595
4	819
5	525

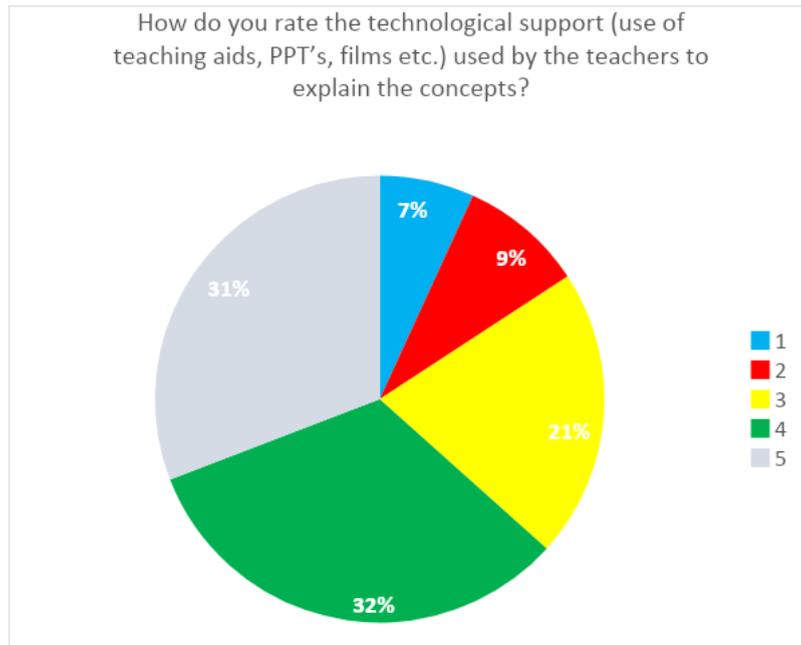

4. How much are you satisfied with timely coverage of syllabus?

1	111
2	138
3	404
4	810
5	782

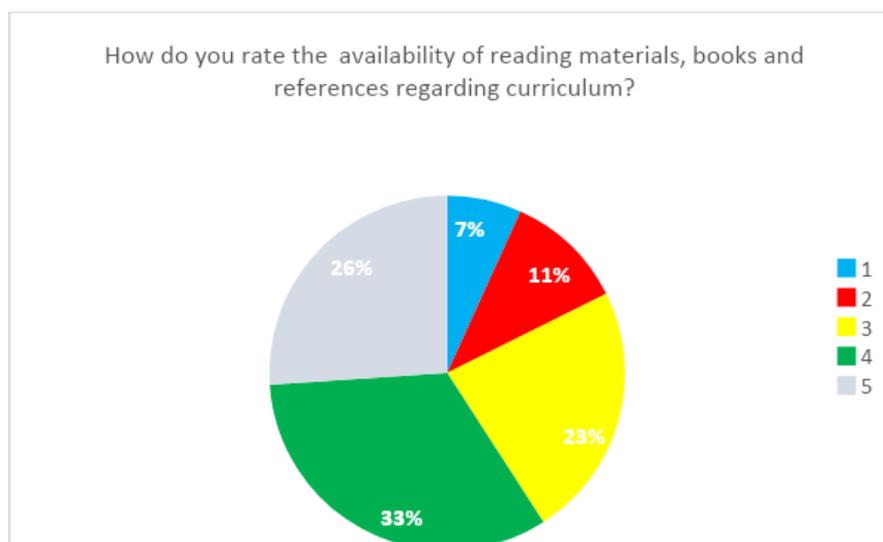

5. How do you rate the technological support (use of teaching aids, PPT's, films etc.) used by the teachers to explain the concepts?

1	153
2	201
3	469
4	729
5	693

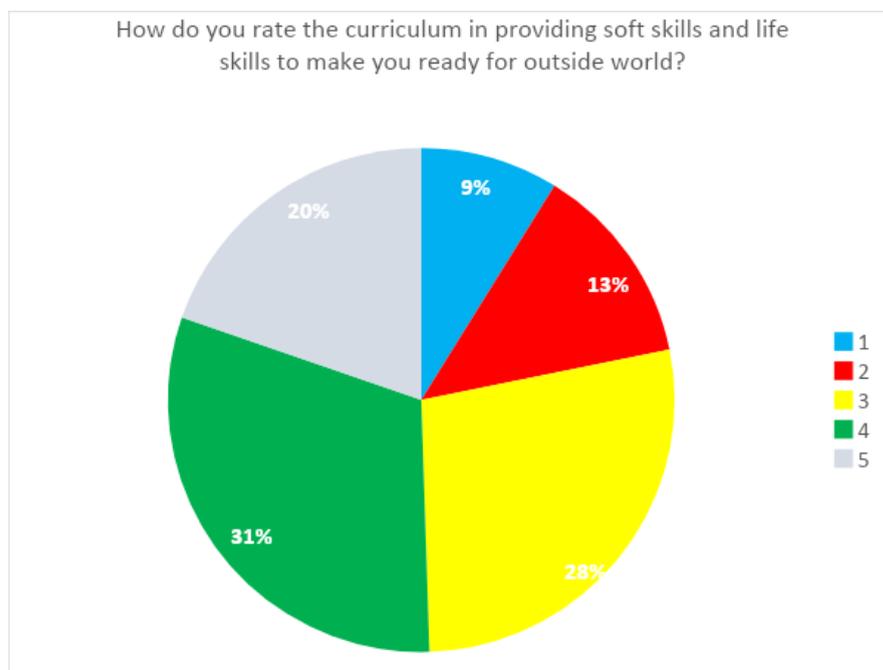

6. How do you rate the availability of reading materials, books and references regarding curriculum?

1	152
2	244
3	522
4	742
5	585

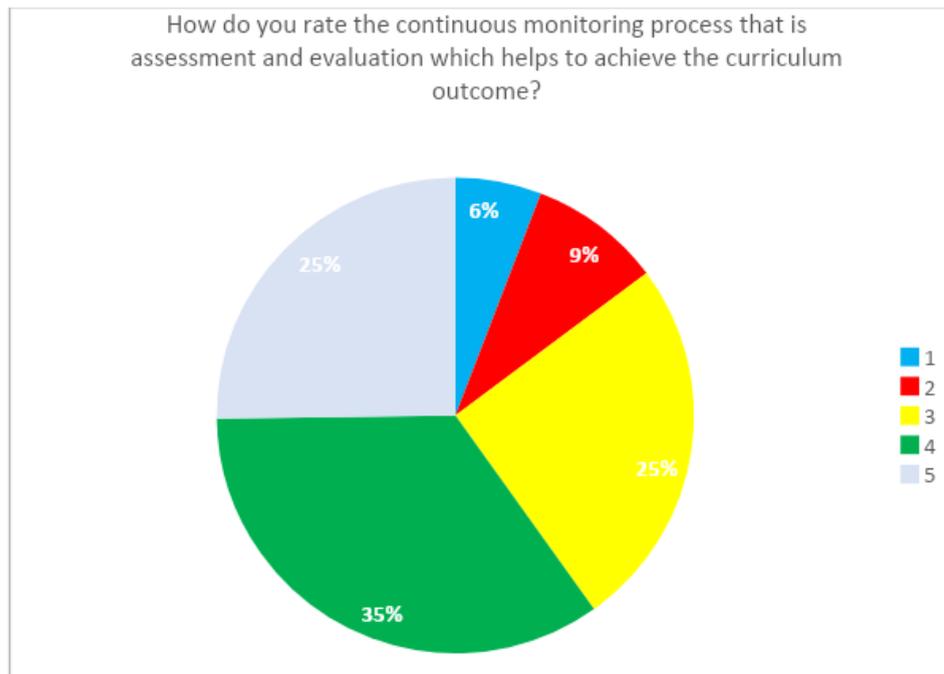

7. How do you rate the curriculum in providing soft skills and life skills to make you ready for outside world?

1	198
2	291
3	622
4	692
5	442

8. How do you rate the continuous monitoring process that is assessment and evaluation which helps to achieve the curriculum outcome?

1	131
2	201
3	569
4	778
5	566

Feedback Analysis:

The Curriculum Feedback form for the students asked them to mark their preferences from 1 to 5, where 1 - Unsatisfactory, 2 – Satisfactory, 3- Good, 4 – Very good and 5 – Excellent.

In the analysis, if 70% and above students have marked ‘3 (Good), 4(Very good), 5(Excellent)’ to a particular question then it is considered as a highly satisfied response. If 30% and above students have marked 1 (Unsatisfactory) or 2 (Satisfactory) in their responses, then it is taken as not satisfied / contended and requires improvement.

Main Points:

- 88% of students were highly satisfied with the design of their curriculum and 87% agreed that the Curriculum was fulfilling their expectations.
- 86% of respondents agreed that the curriculum was revised regularly to match the changing needs of the students and society.
- As far as the timely coverage of syllabus was concerned, 89% students were highly satisfied with it.
- According to 84% of the respondents, teachers were using technological support (PPT’s, films etc) to explain the concepts.
- 82% students were satisfied with the availability of reading materials, books and references regarding curriculum.
- 78% students agreed that the curriculum provided them soft skills and life skills.

- With respect to assessment and evaluation to achieve the curriculum outcome, 85% students were highly satisfied with it.

Suggestions by the Students:

S.No	Suggestions
1	Give more interesting and knowledgeable assignment and tasks.
2	We want some extra material for study purpose.
3	पाठ्यक्रम में पढ़ाए जाने वाली सामग्री को अधिक से अधिक उपलब्ध कराया जाए।
4	A mandatory team project which creates a good impression in C.V.
5	More application based learning.
6	I think there are no changes required. It is best as it is.
7	As a student, we have a lot of assignment and test preparation whether it is oral or written, so as a student I need Saturday off for the break and to focus more on my studies.
8	Festival holidays to be given for more than one day accordingly to the celebration time period.
9	Because of online classes it gets so boring and exhausting to attend 7hrs class daily with only 15mins of break. Either change the timetable or make lectures more interacting and fun.
10	Please give us break of at least 15 minutes after every class.
11	Less of theory, more of practical.
12	No changes required. Our teachers are superb.
13	Provide recording for classes on Google classroom for revision as well many times internet issues are there.
14	First of all I want that now DU must be open ...BSc Hons. Computer Science is not possible to learn online it should be offline for learning and DU should be close on Saturday.
15	Please keep all classes continuously throughout the week in the time table.
16	Provide essential readings.
17	All is good but could be better.
18	Timely coverage of syllabus.
19	Practical subject are lacking in practical knowledge. Online studying is not supporting practical knowledge even the teachers are trying very hard but still it is very difficult to understand things online when related to practical.
20	More workshops.
21	Group Discussion is necessary.
22	It's good no need to change.
23	I don't have any problem with the curriculum but the time we are getting to learn in this online mode is unsatisfactory.

24	We want to make it more practical like if we are students of political science, then it's the responsibility of the college to make possible some visits to parliament and all so that we can understand better. Or also can introduce election in our colleges like all colleges do.
25	The constant syllabus change and lack of timely given assignments could be worked upon.
26	Fully satisfied.
27	The syllabus should be updated with real world topics and issues. The official GIS syllabus should have more skill based units for Remote Sensing.
28	Plz don't put links in any subject syllabus, suggest proper book or reading. It is quite difficult to access the entire link same time. Rather than that everything is satisfactory. Thank you Kalindi team.
29	If the time can reduce on online mode only...and if the number of subject can increase by one or two then for sure growth will increase in B.A programme
30	Please try to make BA Programme timetable a bit comfortable for us. We suffer a lot due to bad schedule.
31	It would be great if curriculums are made keeping in mind the semester length.
32	Weekly quiz regarding the thing taught in the week will be helpful.
33	Focus more on making projects. Instead of giving assignment out of questions from reference books, ask students to make projects on trending technology related to the subject.
34	No it is good enough I don't want any changes.
35	OPEN OUR CAMPUS AS SOON AS POSSIBLE WE DON'T WANT OUR DEGREE IN PDF MANNER WE DON'T FEEL LIKE WE ARE IN REGULAR COLLEGE WE DON'T UNDERSTAND ANYTHING THERE IS NO INTERACTION BETWEEN TEACHERS AND STUDENT. It's our humble request to plz reopen our campus so at least we can feel that we are studying in college.
36	Plz provides us webinar for Internships like app development, web development etc and provide us knowledge about career.
37	I'd like to have more technological knowledge added like teaching various software over 3 years, more research work.
38	Please improve the Office Management.
39	Career counselling and Internships.
40	Skill development is more important than just coping assignments and projects.

41	Please add more practical based topics we are only learning theory we need more practical based subjects to be able to participate in various competitions organized by various research institutes.
42	Decrease the time of classes and include some more social interaction webinars and meets to improve personality.
43	We are learning the same curriculum from very long ago. This is not properly preparing us for the outside practical field.
44	Please introduce more opportunities for students to learn and grow, example: more research projects for result based subjects, more learning opportunities to interact with intra/inter University students, etc.
45	Prefer more outing than just a classroom lectures.
46	<p>1. Please open Library as soon as possible, as we are suffering in finding reading material on Google. Though, teachers are providing and they are doing best as much as they can. But we still need to refer some additional resources and research papers.</p> <p>2. Please make soft copy of university reading available on college website.</p> <p>3. Please try to include practical too in the curriculum, as practical make us, students confident enough to tackle the problems in smooth like butter way and get us in hand ready soon after graduation.</p>
47	More cultural oriented programmes should be held.
48	Everything is fine and teachers are also very nice and supportive. I love it.
49	<p>Political science is a dynamic discipline. Not only the syllabus and reading list need to be in accordance with the changing circumstances and contemporary discourse, the texts and references of the classical/traditional work needs to be made more easily available. Students need to be acquainted with quality research work during their undergraduate years too.</p> <p>Focus and assistance should be provided in the context of skill development and internships.</p> <p>Focus should also be laid on inculcating ethical and moral values among students.</p> <p>Guest lectures should be organized more frequently; it opens us to diverse ideas and ways of thinking.</p>
50	Try to arrange identity and library cards for us as soon as possible.
51	Some practical skill enhancement programs will be helpful.
52	The evaluation made to the assignment should be soft and should help us to score better in overall result.

53	Cultural club should not be mandatory.
54	Some real life interactions debates and extracurricular activities need to be connected so that a student can bloom to their full potential....
55	The OBE exams are not a real mode of testing our knowledge. We are well aware of the fact that offline education is not possible in the current scenario but the internal assessment which was being followed in semester 2 was clearly a better option.
56	More practical subjects must be included along with theoretical concepts since they are highly demanded outside the college. Highly enjoyed subject like DATA ANALYTICS.
57	Try to reach students in a best way by providing best curriculum according to competitive world.
58	Teachers' co-operation, advance guidance, advance explaining of Course subjects overview.
59	Practical classes have too much consumption of data pack.
60	Please give at least one additional subject of student's choice. GE subject is not in our course. I wish to study 'maths' but could not because of the designed curriculum of B. Sc. Life science. Please it's my humble request. Add this subject as GE for at least one semester.
61	Please add some more units to our syllabus. And a little deep knowledge of computer programming languages.
62	For B.A program Please give us more material in geography subject.
63	Fashion society should be start soon.
64	Please add real world examples, hold events with other colleges and encourage real life lessons in the curriculum.
65	Please make subjects more project based so that not only is it easier to learn but also that we have something to add to our resume or portfolio by the end of each Sem.
66	Teachers should start giving us ideas regarding Research work as some students like me want to do PH.D and we want to be prepared from the starting.
67	I want changes in 2nd year history reading material. Plz provide complete study material in 1 photocopy book. Because we are not able to read and buy a lots of PDF as given by our history teacher in this year.
68	There's no sequence in syllabus. Teachers should explain the sequence of the topics so that we can understand easily.
69	There were papers titled "Advertising and PR" and "New Media (Introduction and Advanced)" which covered the traditional patterns of advertising and social media emergence etc. If the curriculum in these papers is substituted with subjects like Search Engine Optimization,

	Social Media Optimization, Graphic Designing and Paid Advertisement trends, students will get highly skilled to apply for a job in the field of digital marketing right after graduation.
70	In the syllabus of our course, grammar should be in the first semester so students can understand the language as well as they can relate one thing to others.
	The subjects we have been taught like Introduction to Journalism or Advertising and Public relations needs more practical approach but it lacks the skill enhancement and practical understanding of the related concepts.
71	There should be proper classes for skill enhancement and also for the placement.
72	There should be a civil service society.
73	Allow students to choose better subjects in B.A. Prog., subjects that can help them when they finally start working, subjects like marketing, sales, advertising and other commerce subjects should be added to help students to get jobs in corporate.
