About The Institutes

MGICCC:

Mahatma Gandhi Institute for Combating Climate Change (MGICCC) was initially established as Mahatma Gandhi Institute for Integrated Rural Energy Planning (MGIIREPD) as a joint venture between Planning Commission (Government of India) and Government of NCT of Delhi (GNCTD). Later in 2007, the joint venture was discontinued, and the Institute was renamed by GNCTD, as Mahatma Gandhi Institute for Combating Climate Change (MGICCC) on 30th January 2009.

The mission of the institute (MGICCC), as enunciated in the relevant order, is to combat climate change and serve as a strategic knowledge centre.

Kalindi College:

The College was established in 1967 as a constituent college of University of Delhi. The motto of Kalindi College "ज्ञानं शीलं धर्मश्चैव भूषणं" meaning "The Real Ornaments are Knowledge, Modesty and Sense of Duty" conveys three virtues of human life: knowledge, modesty and sense of duty. During all these years, the college has not only made substantial progress in the field of education, but also immensely contributed in Nation building. The college strives to provide an intellectual environment that stimulates both critical thinking and imagination.

Concept Note

With the rapid growth and development has led to overexploitation of our resources. At this rate the human race is soon going to exhaust all available life sustaining resources that nature bestows upon us. Sustainable development is an organizing principle for supporting human development goals while also maintaining the ability of natural systems to provide resources and ecosystem services on which the economy and society depend. The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by the United Nations in 2015 as a universal call to ensure comprehensive sustainability by 2030. The creativity, knowledge, technology and financial resources from all of society is necessary to achieve this feat. Our way of life, utilization of energy, methods to reduce, recycle and reuse all need to be constantly upgraded to attain complete sustainable development.

About The Conference
