A lot of people especially the traders and shopkeepers were facing a lot of problems in understanding the digital modes of payments. Ensuing with this objective the college decided to send volunteers from college to nearby residents and Tank road market to spread the awareness.

In order to realize the dreams of children, CDF Kalindi in association with the Social Responsibility Cell (SRC) started its first project 'DREAM KEY LIBRARY' in April 2017. The dreams of these kids were then connected by volunteers of SRC. It has been able to connect around 150 dreams through

donation camps, personal donation and donation from teachers. In addition, it also completed one school dream which was to have a 'playroom' in the school. In every visit to the school, the team of SRC added new books to the library and filtered the dreams. In total the SRC has been able to seeing smiles on their innocent faces. This little contribution helped those children fulfill their long lost dreams.

- In September 2017, the social responsibility cell came up with its second project 'KILKARI'. Under project Kilkari, the children living on streets are chosen by the R&D team, their families are counseled about the importance of education. A Kilkari pathshala in the slum areas of Jhandewalan with a strength of around 20 kids is being conducted every 4 days in a week.
- In January 2018, the SRC started its third project, 'MASOOM'. Interaction with a lot of organisations and day to day experiences made the team realize that the community of special people needs a lot of attention. They lack equality, respect, love, affection and they are denied the acceptance and emotions that every human being on this Earth deserves.. A total of 5 volunteers are handling these 3 areas by conducting sessions three times a week, each session is for two hours. After a successful operation of this project, the volunteers have been able to inculcate a feeling of 'being a normal person' in the minds of special people and also in making them aware of various things such as identification of coins and notes, time and basic skills.
