As per comments/ suggestions given by students, following points
are listed

Appreciation

1. During online classes the college faculty are very supportive and provide adequate guidance to students.
2. Even during COVID 19 syllabus completion on time by all the teachers.
3. Quality of teachers is appreciated.
4. Teaching staff is supportive and understanding.
5. Natural beauty of college is attractive.
6. College life helped in overall personality development.
7. NSS society is appreciated.
8. Library facility is good.
9. Laboratories are well-equipped and well-functioning.

Table for improvement required

S. NO.	Heads	Suggestions given
1.	Admission Procedure	Try to improve administration department.. students stood in que for 2-3 days to submit exam fees and that too just before the exam days The admin office and staff needs to be punctual. They arrive in college at 10 and open window much later even though timings are of 9-9:30.
2.	Fee Structure	Please improve your online fee facility.

3.	College Academic Environment	The college experience was overall good. It was good to be part of Kalindi College.Such a humble teaching staff it has. The three year of academic life was good , teachers were always ready to help in times of need whether online or offline. Studying in Kalindi enhanced my skills and built my confidence level.
4.	Infrastructure and Lab Facility	Please repair canteen and sangam parisar and other infrastructure. Needs to invest more on infrastructure and college co curricular activities. Improvement is required in sports facilities. More focus should be given to lab practical rather than theory. Newer equipment and apparatus required in laboratories. Washroom renovation required. Proper lock system should be there in washroom. Projectors are mostly out of service. More focus should be given to field work in geography subject rather than just laboratory. Focus more infrastructure and campus building, so that students can feel some exposure like North campus.

		Canteen should be improved (regarding food qualities) . Overall condition college is well good and maintain but furniture are not good overall best experience with Kalindi college
5.	Faculty	The faculty members are really amazing and they'd given valuable lesson to us. The whole experience of attending fears to organising conferences at college, it was a wholesome experience. The college teachers are so much supportive and they have guided us so well.
6.	Completion of Syllabus	Syllabus always completed on time.
7.	Online teaching/learning	More question solving should be done in online classes and some time should be given to extracurricular activies, the academic part is very satisfactory. Time table should not be hectic. Students should get enough time for self study.
8.	Online access to study material	Study material available online but more options are required.
9.	Project Guidance	Good

10.	Training and Placement	College needs to build proper management for training and placement for their students I Want from my college to enhance and polish skills of pass out students by providing them opportunities according to their talent It was good experience at kalindi but there should be placement for physical science students in their third year. More opportunities related to internship should be provided. Also, recreational activities for students should be encouraged. Please design a creative entrepreneurial mindset in students. There should be an incubation cell for ideas, young mentors in these cells, workshops on Design Thinking, Value Creation, Research Gaps and more such relevant action oriented learning to prepare students for what holds next in the future. More speaker sessions of alumni should be explored, networking should be emphasized more.
11.	Library Facility	Staff should be on time. More sitting area is required. More number of books needed. More books for hindi medium required.

Scanned with OKEN Scanner

		Please fix the arrangement of library for the students.
12.	Role of ECA in College in personality development	More seminars/webinars should be conducted. Alumni meet should be conducted more often. College should work on more curricular activities. More activities for students should be promoted.
13.	Alumni Association/Network of Old Friend	Please design a creative entrepreneurial mindset in students. There should be an incubation cell for ideas, young mentors in these cells, workshops on Design Thinking, Value Creation, Research Gaps and more such relevant action oriented learning to prepare students for what holds next in the future. More speaker sessions of alumni should be explored, networking should be emphasized more.
